

A message from Johnsonville Shopping Centre

Stride Property recognises the importance of Johnsonville Shopping Centre to the local residents, tenants, business owners and the wider community of Johnsonville.

We appreciate the frustration within the community regarding this project's timing. In light of recent media reports, we want to reassure all of our tenants, shoppers and residents of the area that since receiving resource consent for the proposed redevelopment in January this year, we've been working hard to progress the commercial feasibility for the project. At this point in time we are unable to confirm a definite timeline for the works. However, we firmly believe we can create a high-quality retail centre in Johnsonville that will be an asset to the community.

This is a complex process that requires extensive, often protracted negotiations, all of which are subject to confidentiality. We have a team dedicated to the project and will share any news at the appropriate time.

As we continue with this process, we appreciate the continued support that the local community has shown to our current Johnsonville tenants. Over the coming months you will see even more reasons to visit the Centre including the continuation of our Family Fundays, the introduction of Toddler Tuesdays, School Holiday Fun, plus more competitions, giveaways and events.

We look forward to welcoming you to Johnsonville Shopping Centre, now and in the future, and would like to take this opportunity to thank you for your ongoing support.
